HIV & STI SERVICES AT CRISIS PREGNANCY CENTERS

WHAT ARE CPCS?

Also Called Fake Women’s Health Clinics & Pregnancy Resource Centers; Pose Harm But Receive Substantial Gov’t Support & Funding.

Anti-abortion, anti-contraception religious centers

Often mimic health clinics & use deceptive tactics

Frequently provide inaccurate information

CPCs Outnumber Local Health Departments

2,500+ CPCs

STI Rates in the U.S.

STI Rates are at An All-Time High for the Sixth Year in a Row. Quality Prevention & Treatment Services Are More Important Than Ever.

Since 2015, STI rates increased up to 279%

FINDINGS FROM A NATIONAL STUDY

Reached 99% of all CPCs in the U.S. (n=2,467) & found:

552 offered STI testing
377 offered STI treatment
208 offered HIV testing

Additionally, Most CPCs Did Not Proactively Provide Referrals for HIV/STI Services They Did Not Offer

58% Did not refer for STI testing
92% Did not refer for STI treatment
92% Did not refer for HIV testing

23% Of CPCs That Offered STI Testing Appeared to Lack a Treatment Strategy

TOWARD BETTER PUBLIC HEALTH

CPCs Extend STI Testing But Oppose Condoms & Do Not Follow Medical Standards
